

## Electric screw drive

Independent electric screw drive brings you both plasticization and energy efficiency.

## Pressure hold valve

With the advanced pressure hold technology, the system makes the plasticization and pressure hold at the same time therefore has a better cycle time for production.

## Reliable clamping

PET

Special design for PET preform mold, which ensure the fast clamping movement and uniformly forced of the mold.

## Proportional valve control

## Servo motor drive hydraulic system

The hydraulic system was driven by a servo motor which ensure the lower energy consumption and sufficient hydraulic power supply.
